Coffee Sourcing Policy	1	Ana Nicula	T. Lowe	April 2026	Page 1 of 2	April 2027

Aim:

At Whitbread, we are committed to minimising our impact on global deforestation and forest degradation through robust sourcing policies.

Objective:

The Coffee Sourcing Policy describes how we source products containing coffee which are sold through Premier Inn restaurants & hotels in UK& ROI.

Scope:

The Coffee Sourcing Policy applies to non-branded coffee (hot and alcoholic) drinks sold or made available to customers in Premier Inn restaurants & hotels in UK & ROI. Coffee utilised in food is excluded from the scope of the policy.

The Coffee Sourcing Policy does not apply to branded coffee products or drinks sold or made available to customers in Premier Inn restaurants & hotels in UK & ROI, where the brand owner is clearly visible to the customer on the product label or packaging e.g branded instant coffee sachets available in Premier Inn rooms.

The Coffee Sourcing Policy does not include any of the requirements related to the implementation of Regulation (EU) 2023/1115 on deforestation-free products (EUDR). The Coffee Sourcing Policy was reviewed at a time when there was uncertainty regarding the scope of EUDR. At Whitbread, we are closely monitoring all EUDR-related developments and will review and republish the Coffee Sourcing Policy once more clarity is obtained.

Policy Statement:

All in scope coffee carries Rainforest Alliance certification.
